

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

DIRECTIONS Make sure you
- show all your work in solving the problem,
- clearly label your answers,
- tell in words how you solved the problem,
- tell in words why you took the steps you did to solve the problem, and
- write as clearly as you can.

To solve this problem first I, made 19 wheels because I could make the problem easier by putting an arrow and a B or T for bike wheels or trike wheels. Next I, made bikes but when I only had 3 wheels left I stopped because if I made another bike I'd only have 1 wheel left and there's nothing with 1 wheel. Then I, made the last 3 wheels a trike because 3 wheels would make a trike and if I made another bike I'd only have 1 wheel but we don't have any unicycles. Finally I wrote 9 Bikes and 1 Trike and put in my answer of 9 bikes and 1 trike
